

This is a project that I started and brought JDH into in the last few days.

Robert Reder has nothing to do with it, yet, I believe.

Neither have you or I spoken of it.

Richard, you are giving too many instructions to too many people about the same topic. David is working on this. Robert is working on this, and you are working on this.

Please let us do this.

Please respond and tell me what you would like to do – what are the goals of the meeting. Please tell us if you have already invited anybody or if there is anybody you think we should consider.

Please let us pick the dates. Please tell us if you have committed to dates.

Please let us make the arrangements.

Please do not talk directly to David about this.

There are so many crossed wires here.

PLEASE!!!

Meeting with the leaders of the APS, APF, and other pain societies.

This is the meeting that Campbell and Foley wanted to happen at the APS, but we declined.

I want it to be in Stamford if possible, or NYC as a fallback. Our goal is to bind these organizations more closely to us than heretofore, but also to align them with our expanded mission and to see that the fate of our product(s) are inextricably bound up with the trajectory of the pain movement.

Richard S. Sackler, M.D.
